

How to file a claim

When you visit your provider, they'll likely offer to file your claim for you. They might also ask that you pay your share of the cost at the time of your appointment. Either way, if you want them to file your claim, you'll need to show them your Medico insurance card. If your provider does not file on your behalf, you can submit your own claim by following these directions.

Dental claim filing

Submit a provider's itemized statement or ADA Dental insurance claim form that includes:

- Name of patient
- Date(s) of service
- Provider's name, address, and tax identification number (TIN) or National Provider Identifier (NPI)
- Dental (ADA) procedure codes and billed amounts for services performed
- Tooth surface(s) and tooth number(s), arch, and quadrant

Include the following policyholder information:

- Insured's full name and address
- Medico Insurance Identification number (from your ID card)

Claims can be submitted via mail, fax, or electronically using the MyMedico mobile app.

 Medico Insurance Company
