First Diagnosis Cancer Insurance

First Diagnosis Cancer insurance: More than just its name

Nearly everyone has experienced or knows someone who has experienced a cancer diagnosis. In fact, about 40% of adult Americans will develop cancer during their lifetime.¹ The good news is cancer screening and medical technology have greatly improved in recent years. However, with more advanced technology comes higher costs.

In 2019, U.S. cancer patients' out-of-pocket costs were \$16.22 billion.² Our First Diagnosis Cancer insurance can help ease the financial burden.

When you hear, "First Diagnosis Cancer insurance," you automatically think it is meant to cover medical expenses. It does, but it also covers the ancillary costs tied to a cancer diagnosis. Wellabe cares about being with you during the big and little moments to make sure you're well protected, well prepared, and well loved.

Wellabe's First Diagnosis Cancer insurance lump-sum payment allows you to choose when and where to spend the money to cover a wide-range of expenses.

MEDICAL COSTS

Surgery, chemotherapy, or radiation

OUT-OF-POCKET COSTS

Deductibles, copays, experimental treatments, lost income due to working less, mortgage or rent, travel during treatment, in-home care, and more

WHO NEEDS IT

You know you need to purchase home, car, and life insurance, but cancer insurance is just as important. You may especially want to consider getting First Diagnosis Cancer insurance coverage if you:

- Have a family history of cancer
- Are the sole wage earner of the family
- May not have enough savings to cover expenses
- Have health insurance that doesn't cover all cancer-related expenses
- Have not been diagnosed with a cancer within the last 10 years

HOW IT WORKS

Our First Diagnosis Cancer insurance is for anyone 18–79 years old. It has no policy or application fee, and its cash benefit can be purchased in increments of \$5,000 from \$10,000 to \$25,000, depending on what's available in your state. When you sign up, you choose the benefit amount that you will be paid directly if you receive a qualifying diagnosis. Plus, you'll receive:

- The same rates for men and women
- Payments regardless of other insurance you may have
- Coverage for first diagnosed internal cancer or malignant melanoma³
- A short, 30-day waiting period that begins on the policy date⁴
- A 10% household discount on your premiums if you live in the same household as another person over 18 years old and are both issued coverage (*varies by state*)
- Guaranteed renewable coverage as long as payments are made on time⁵

At an additional cost, you can purchase an inflation protection benefit that automatically increases the cash benefit amount by 5% of the original amount each year for the life of the policy.⁴
